

Special Instructions: November 4, 2025

1. This is a **Municipal General Election**. The only eligible voters live within the municipalities of **Greensboro, Jamestown, Kernersville, Oak Ridge, Stokesdale, Summerfield, Whitsett, Sedalia, Gibsonville, Burlington, Pleasant Garden, and the Sedgefield Sanitary District**.

Eligibility for this election: Voters must live within the municipalities listed above (most precincts open will only have these voters, but some have a mix with other municipalities or unincorporated county residents).

Ineligible voters will either **not have a label** or the label will be marked **"No Ballot"**.

Not all precincts are open – please refer to the list of Open/Closed precincts.

2. **Registration Books/Pollbook labels pickup by Chief Judge at BOE Office: Monday, November 3, from 9 a.m. to 6 p.m.** Please call ahead if you are arriving after 5 p.m.
SDRI, JAM1, JAM2, JAM3, and JAM4 – Please go to the High Point Office from 9 a.m. to 2 p.m.
3. **Monday Set-Up:** Precinct officials should follow the instructions starting on p. 9 of the Precinct Officials' Handbook. During this time, precinct officials will confirm ballot styles and quantities, set up booths and other equipment, and verify power to the voting system.
4. **Cell Phones:** Voters may use cell phones in the voting enclosure to view a sample ballot; however, they must not take pictures of a ballot or communicate with others. If a voter is taking pictures or obviously texting/talking on the phone, please ask them to stop and refer them to the provided green sign indicating that it is illegal to photograph a ballot or communicate while in the polls.
5. **No political talk or discussions of candidates or Parties.** Poll workers must not wear any clothing or accessories that would indicate support or opposition to any candidate.
6. There are some very helpful training videos that can be found at:
www.guilfordcountync.gov/trainingpollworker.
7. **Curbside Voters:** Be on the lookout, check the area, or post somebody who can see your curbside voting area. Curbside ballots are now scanned into the DS200 tabulator; they are not placed in any envelope. **You must use the privacy sleeve to deliver the ballot from the car to the DS200.** Note: There is no separate Curbside Affidavit - it is printed on the bottom of the AtV.

Ask curbside voters to wait while you insert their ballot into the DS200, in case they have overvoted or made unclear marks. **They should be allowed to correct those issues if they so choose.**
8. **Observers:** There will be Observers. Please refer to your handbook for instructions. They must be allowed to move around or change seats to observe. They may not speak to or interfere with voters or get too close while voters are filing out or casting their ballots.

9. **Electioneering** is allowed outside of your designated buffer zone (max 50ft from the entrance to the polling place). Please monitor this zone for signs, flyers, and people who may enter it. If problems are recurring, please call the elections office. When in doubt over placement, call the office to discuss.
10. Any registered voter in the county may **challenge** a voter. If a challenge is issued, consult your handbook (pg. 37) and call the office.
11. **Voter intimidation** issues can occur, and you must be on the lookout for this. If you experience this, contact the elections office and do your best to facilitate the continued voting process for impacted voters.
12. **Your safety is incredibly important**, and do not hesitate to reach out if you feel that your safety has been compromised. If you feel that there is an imminent threat of harm or danger to you or to the voters, you may call 911, then the elections office. If there is not an imminent threat, please call our office first. We have many different resources that we can deploy depending on the situation.
13. **Absentee voters who voted after the printing of the registration books** will be in your books, but they **will not be marked** as already voted. They will be on the list of absentee voters delivered by your coordinator, and you must mark them to ensure they cannot vote again.
14. **Voter Check-In:** Please **select the correct voter** using the information on the label. We often encounter issues with father/son pairs, husbands/wives, or voters with similar names being incorrectly selected. The voter must state their name and where they live out loud. Then they must **present a photo ID**.
15. **There will not be E-Pollbooks for this election.** The Allocation Book is provided to assist voters with their districts and the correct precinct.
16. **Absentee and Early voters** - Those who voted an absentee ballot or voted early prior to our printing the registration lists are already marked as follows:

18. **Unreported moves should not vote using a provisional ballot.** Follow the instructions on p. 28. Call the old precinct to verify their registration status and mark a T in the book. If you cannot reach the old precinct quickly or if there is any confusion over the process or status, call the office immediately.

22. **Provisional Voters:** these voters **must** vote a Provisional ballot.
- *Voters voting out of precinct (who would not go to their correct precinct).

 - Voters with no Photo ID, or whose IDs were denied by the unanimous vote of officials
 - DL/SSN Provisional Only voters – on label

When in doubt about a voter's eligibility, please have the voter cast a provisional ballot—not one that will go into the DS200.

*Voters in their old precinct should be strongly encouraged to vote in the proper precinct for their residence address (their residence more than 30 days prior to the election). If they will not go to the correct precinct, they may vote at their old precincts, and their provisional ballot will be counted only for those contests on which they would be eligible to vote.

You must mark these ballots with a "P" and precinct **BEFORE** giving it to the voter.

26. **Write-ins** are allowed as indicated on the ballots.
27. Some precincts are **Split Precincts** and have more than one ballot style – be careful when doing inventory and distributing ballots
28. **Monday Set-Up** – Precinct officials should follow the instructions starting on p. 9 of the Precinct Officials' Handbook. Please confirm:
- You have the DS200 for your precinct.
 - The ballots on the **Ballot Report Form** are in the ballot bin. Confirm and check these off on the form.
 - Check seals on the Machine Checklist.
 - Plug in the DS200, confirm power. Leave plugged in if possible.
 - Set up booths, if possible
29. **Tuesday Morning** – Follow instructions on pg. 17 and on the large instruction sheet to power up and prepare DS200:
- Remove ballots from the bin and take them to the ballot distribution table.

 - Lock bin doors and prepare for voting.
 - With DS200 plugged in, open the lid and lift the screen. You will need to use the **election code** provided to you at the Instructional Meeting.
 - Open the polls and print zero tape (observers may watch, look at the tape, and take pictures)
 - Set up AutoMark, and make sure it is securely plugged into power.

BALLOT MARKING INSTRUCTIONS A. With the marking device provided or a black ball point pen, completely fill in the oval to the left of each candidate or selection of your choice as shown. B. If you tear, deface or wrongly mark this ballot, return it to request a replacement.		
		

31. The voter must **feed their ballot into the DS200**. Most voters' ballots will feed in seconds, but there can be some issues:
- Overvotes: voter will be "queried." Can cast their ballot or have it returned, spoiled, and get a new ballot.
 - Unreadable Marks (may be ✓'s or X's, please advise to fill in properly – spoil and reissue if necessary).
 - Jams: can be cleared, and the message on the screen will tell whether the vote was counted or not.
32. **Blank Ballots:** While at the ballot table, please instruct voters to *fill out their ballot* at a booth before going to the DS200. Voters will see a message and be asked if this is their intention.
33. **Spoiled Ballots:** Please follow the procedures on page 23, and issue a new ballot
34. **Emergency Bin:** Only use this in an emergency, such as a dead battery in DS200 during a power outage or a jam that you cannot clear. Once the issue is resolved, during a quiet moment, or after the voters are gone, please scan the ballots using a bipartisan team. Make sure you check this bin at the end of the night to ensure that all ballots get scanned and returned to the elections office.

End of Night

35. **Closing Polls:** Any person may watch only steps "a" through "e" (below) of this process without interference. They may look at (and photograph, if requested) one of the result tapes while you finish up, and then they must leave.
- Open the Master USB door (sometimes called the media door), hold the "Close Polls" button down for 3 seconds.
 - The menu will give the option to "not close" or "close," and you should choose to close polls.
 - DS200 will begin to close, and both copies of the results will print
 - Wait for the DS200 to power down completely. The screen will go dark, and the illuminated Close Polls and Power buttons will then go dark. After full power down, remove the Master USB stick, place it in the pink bubble bag, and return it to the Red Bag.
 - Remove voted ballots (check the emergency bin too!)
 - Place the ballots in the cardboard ballot return box.
 - **Write your precinct on the box.**
 - **Seal and document the seal number on the Ballot Report Form.**
 - Return ballots with supplies
- 
36. **Two result tapes** will print. **The Chief Judge returns one signed copy and the write-in report in the red bag.** One Judge must mail the second signed copy of the results tape in the provided envelope. **Members of the public may view and take pictures of one of these tapes after 7:30.**

37. **Red Bag** – Return this with your Master USB, results tape (with zero tape, Provisional Ballots, and Challenged Ballots. Seal it with the included green pull-tite tab seal.
38. To **close the Automark**, simply turn the key to “Off,” unplug it, and put it back in its case.
39. **Ballot Report Form:** This document must be completed and signed. It is the reconciliation of the ballots we have provided. Document the seal number placed on the cardboard ballot return box or envelope. It will remain in the black binder. See page 49 of the handbook for more details on this procedure.
40. The **executed AtV forms** must be returned in the blue bag on election night. Do not leave them at the polling place.
41. **Unused Ballots:** After taking inventory for the Ballot Report Form, place them inside the DS200 Ballot Bin, lock the bin, and then apply the final blue seals. Do not forget to take the *voted* ballots back to the elections office.
42. **Let your Coordinator know your status** at 7:30 p.m. (or shortly after) and let them know when you leave the polls to report your results.
43. **Keep your telephone on** and where someone can hear it at all times!
