I. Conditions within the County

Guilford County is one of the twelve counties in the Piedmont Triad region centered along the Piedmont industrial crescent stretching from Raleigh to Charlotte. It contains the third and eighth largest cities in the state, Greensboro and High Point respectively. The Office of State Planning estimates the current population of Guilford County to be 424,000.

Guilford County has had at least 42 companies to close or downsize during the last 18 months. This has strongly impacted the employment opportunities for the Work First Employment Services (WFES) population. More stringent hiring requirements are being used and enforced by employers.

The majority of WFES customers in the current caseloads have little or no job skills. The jobs in the textiles and furniture industries, which they might have obtained, are now permanently lost to the overseas market. The companies hiring are looking for skilled workers. Many of the jobs that are now available are in the service sector, such as food services and retail sales. Often those positions do not provide the same wages that were available in industry. Another growing industry is that of customer service call centers. These jobs require computer data entry and telephone skills, as well as interpersonal skills. The hours of work for these positions may vary.

Many WFES customers are involved with mental health counselors for themselves or immediate family members. Some are in need of intense case management due to substance abuse, alcoholism or domestic violence. Many customers simply are not “job ready” – mentally, socially, or physically.

Customers who have succeeded in achieving self-sufficiency are now returning and seeking help due to the economic conditions. These same economic conditions have created a more competitive job market making it more difficult for our customers to obtain and maintain employment.

B. Public Comment

The Guilford County community had an opportunity to review and comment on the 2005-2007 Work First draft plan. The draft plan was on public display from September 1, 2004 through September 10, 2004 via the Guilford County website, all public Libraries and the Guilford County Department of Social Services.

C. Planning Process

The committee met on August 16, 2004. The Department of Social Services staff was available to educate the committee on existing programs, provide updates from the
previous plan, answer questions, provide technical support, summarize committee's input and assist in the revision process.

III. Outcomes and Goals for the County

A. Statewide Work First Goals

The North Carolina Division of Social Services, in consultation with the county department of social services and county board of commissioners, has established acceptable levels of performance by counties in meeting the following six Work First goals.

1. Employment. Self-sufficiency will be realized primarily through the employment of Work First clients.

2. Meeting Federal Participation Rates. Active participation in federal countable work activities will lead to full-time employment.

3. Providing Employment Services. Active participation in intensive employment services for all families is necessary in order to meet the participation rate and to ensure families are served adequately before the end of five years. One measure of success in Work First is the percentage of families who are subject to the work requirement that counties are assisting with job preparation and job placement.

4. Benefit Diversion. The most successful outcome possible is for an applicant to avoid the need to become a recipient.

5. Staying Off Welfare. Efforts to reduce welfare rolls, help adults find jobs, and increase self-sufficiency are undermined when families return to welfare. Families leaving Work First because of a job are tracked to determine if they return to cash assistance.

6. Job Retention. Families who leave Work First for employment and continue to be employed 6 to 12 months after leaving the program show evidence of keeping their income and increased job stability, which impacts a family well being. This measure will be based on the number of responsible adults that leave Work First Family Assistance for employment who are still employed at 6 to 12 month intervals following termination.
Overall, Guilford County met the State established goals. Below is the list of goals and Guilford’s outcome for the 2002-2003 reporting year.

B. County Developed Outcome Goals

Guilford County does not have additional goals other than the goals outlined by the State. The Department of Social Services’ Leading BY Results team has established the following six goals for the Department.

1. At-risk children and families to be safe and healthy in stable environments.

2. Economically disadvantaged children, families and adults become self-sufficient.

3. Aging and disabled adults served by Agency to be safe and healthy and live in stable and least restrictive settings.

4. Children in custodial care to become successful adults.

5. Engage in community partnerships to understand social issues and prevent social problem.

6. Maximization of resources and achievements of results while maintaining the highest fiscal accountability.

The Leading By Results (LBR) committee will utilize a variety of State reports, internal tracking measures, Data Warehouse information, and web sites to monitor these goals. The Self Evaluation Team has established the baselines and will gather the data.
IV. Plans to Achieve the Outcomes and Goals

A. Activities

Guilford County ranks as the third largest county in the State. Due to the high number of cases in this county, reaching all of the goals has been a difficult task to achieve. Strategies include close monitoring of reports, providing intensive case management, utilizing Pay after Performance procedures, and building teamwork among staff.

Guilford County is fortunate to have partnerships with a variety of community agencies to provide activities for Work First customers. This variety allows the social worker to tailor each customer’s work plan to meet their individual needs. Many of the customers have barriers that make them “hard to place”; therefore the community partnerships clearly include the specialized training or assistance that is needed to move families towards self-sufficiency. Regularly scheduled staffings involving the community agencies has proven to be essential. Many activities are performed at the Department of Social Services including:

- Employment Assessment
- Case Management
- Eligibility Determination
- Information and Referral
- Job Club
- Broker for Community Resources
- Job Search
- In-House Job Readiness

B. Supportive Services

The Department of Social Services with other public and private agencies are working to provide supportive services to enable Work First families to participate in employment related activities.

The focus of the entire agency is to provide up-front, short-term services to divert families from ongoing assistance. All staff share job leads and vacancy information with customers to encourage employment. Different program areas have expanded their work hours to accommodate employed customers. Retention services are marketed to encourage former Work First customers and other working families to maintain employment. Workplace mentoring is also being developed, as well as, networking and support groups.

Other supportive services offered by the department include bus passes, car repairs, mileage reimbursement, gas vouchers, clothes, shoes, uniforms, tools, gifts/incentives, daycare registration, budgeting, counseling, books, supplies and
some tuition expenses. Formal and informal agreements are also in place to assist families with clothes, household items, finances, support groups, mentoring, etc…

Employment Security Commission and Vocational Rehabilitation are no longer located on site to provide supportive services. The department is certain that the combined efforts of the agency and the community will continue to move Guilford County closer to meeting county goals. The Community Resource list on pages 9-12 shows the extensive collaboration within the county.

Listed below are some of the community agencies and activities offered at their individual locations.

The Work First caseloads are aligned in both cities so that each Cash and Employment worker has a partner or teammate to share a caseload.

The Intake process has in Guilford County has completely reorganized. The Processing Chief oversees the staff assigned to the Generic Intake Units in both Cities. Generic Intake Units completes one application for all appropriate programs: Work First Cash, Food Stamps, Medicaid, Emergency Assistance and Child Care. This CONTRACT made and entered into this first day of April 2004 is between Alcohol and Drug Services, located at 5209 W. Wendover Avenue High Point, NC 27265 (hereinafter referred to as ADS/PROVIDER) and the Guilford County Department of Social Services, located at PO Box 3388, Greensboro NC 27402 (hereinafter referred to as DSS)

The mission of the Work First/Child Protective Service Substance Abuse Initiative is to provide early identification of substance abuse disorders that will affect the Work First consumer’s ability to secure and maintain employment, and to provide referral and case management services to the eligible population to be served. This initiative will also facilitate substance abuse services to parents and caretakers of children, where there has been substantiated child abuse, neglect and/or dependency in order to better assure the safety, permanence and well being of children

Now, THEREFORE, in consideration of the covenants mutually exchanged, the parties hereby agree as follows:

SECTION I: THE PROVIDER AGREES:

Subject to the availability of funding from the Division of MH/DD/SAS to provide two full-time equivalent (2.0 FTE) Qualified Substance Abuse Professionals (QSAP’s) to be housed at DSS offices located at 1203 Maple Street Greensboro, N.C., and at 300 S. Centennial High Point, N.C. These QSAP’s will be supervised by Alcohol and Drug Services.

B. Subsequent to the client screening, (AUDIT and DAST-10), the QSAP will assess the referred client, using the Substance Use Disorder Diagnostic Schedule (SUDDS) IV assessment tool and/or other state approved tools, including but not limited to the N.C. TOPPS Initial and Update Assessment Forms for each consumer admitted to service. The QSAP will notify identified DSS staff in writing within two (2) working days of the results of the assessment.

D. Together with the assessment, and if appropriate, the QSAP will develop a written service plan for the client. The plan, if appropriate, will contain the following: client identified barriers to employment; QSAP’s identified barriers to employment; client identified actions and support services needed to remove stated barriers; QSAP identified actions, treatments (s) and support services needed to remove stated barriers; any additional necessary services for the client’s child(ren); time lines for implementing and reaching treatment objectives.

E. The QSAP will send identified DSS staff a copy of the service plan within two (2) business days of its completion.
F. The QSAP will determine if appropriate treatment is available to meet the needs of individual clients. If appropriate treatment is not available, the QSAP will notify identified DSS staff in writing and the client cannot be considered as having failed to comply with a service / treatment plan.

G. The QSAP will present to DSS monthly the results of initial screenings, assessments and proposed service / treatment plan with time lines.

H. The QSAP will be responsible for determining the scheduling of on-site drug testing.

I. ADS will be responsible for monitoring the expenditures of designated funds.

SECTION II DEPARTMENT OF SOCIAL SERVICES (DSS) AGREE:
