Guilford County Child Care Health Consultants

Ensuring a Healthy and Safe Environment for Children

Child Care Health

Consultation (CCHC)

Shared hugs, toys and activities and yes germs are all part of the child's environment in child care facilities. The Guilford County Department of Health and Human Services, Division of Public Health, CCHC program's mission is to promote and protect the health of children and staff in child care programs. The primary goal is to ensure a safe learning environment for young children so they are prepared to enter kindergarten healthy, safe and ready to learn.

Who is a CCHC?

A CCHC is a healthcare professional with knowledge and skills in public health, pediatric health, child development, local and state child care regulations, and has a general interest and respect for child care providers. The CCHC understands health laws impacting families with children in and out of the home care setting.

As educator, the CCHC is skilled in teaching children, parents and child care staff about general health and safety practices.

What services do CCHCs provide?

- Technical assistance in developing and updating written health and safety policies.
- On-site classroom consultation.
- Health and safety assessments to determine training and improvements needed.
- Assistance in developing inclusion plans for children with special needs.
- A review of health, safety and nutrition practices.
- Health education for staff, parents and children.
- Information on community resources.
- Secure Medical and dental homes and preventative care.
- Availability to child care staff regarding health concerns.

How do child care facilities benefit by having a CCHC?

A strong relationship with your CCHC will result in:

- Up to date policies and procedures
- Safe medication administration
- Increased immunization rates
- Reduction in communicable disease
- Reduction in injuries
- Consistent adherence to sanitation guidelines
- Regular trainings on health and safety
- Improved customer satisfaction
